Parents!

Keeping Kids Healthy Can be Tough!

In today's super-charged world of fast food and busy schedules, it's harder than ever to keep kids eating a healthy, balanced diet. Multi-vitamins can supplement the nutrients a child needs to ensure they're getting what their growing bodies need to reduce the risk of certain deficiencies and illnesses.

Free Vitamin Program!

Ladue Pharmacy is ready to help you help your kids! In partnership with the Ladue Schools Parent Associations, we are launching the "Keeping Kids Healthy" Free Vitamin Program for Ladue School District Elementary Students. This program offers students a free 30-day supply of chewable multi-vitamins each month.

How does the Program Work?

Parents voluntarily sign up for the program and visit Ladue Pharmacy each month to pick up your free 30-count bottle of vitamins for each child in grades K-5. Information and registration can be found on the Ladue Pharmacy website or ask a Parent Association member at your elementary school.

What's the Catch?

Ladue Pharmacy has been serving generations of area families for more than 50 years. This vitamin program is one of the many community service efforts sponsored by the dedicated staff at Ladue Pharmacy.

Consult your doctor before giving your child any vitamin supplement
